

BULK CABLE

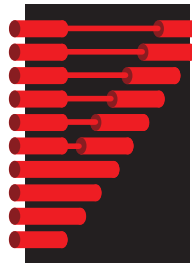

Since 1966, Vermillion has built a reputation as an extremely high quality manufacturer of custom cables, meeting the challenges of the aerospace and defense markets. Our vast experience in design and manufacture of custom cabling, utilizing shielding materials to meet your requirements, is unparalleled in the industry. Vermillion cables are built to meet your specifications for EMI, RFI, Secure Voice/Tempest applications. Vermillion's engineering group is available to work closely with you during the design and development in order to produce cables, while maintaining consideration for manufacturability and costs.

When your application demands high performance cable, look no further than Vermillion!

CAPABILITIES

Wire Striping

Twinning

Extruding

Cabling

Braided Shielding :

- **VERMALLOY®**

Excellent magnetic shielding material for both secure voice and EMI protection

- Silver - Coated Copper
- Nickel - Coated Copper
- Aracon

EQUIPMENT:

- Strippers
- Twinners
- Cablers
- Wardwell Braiders
- Extruder
- DIT-MCO Test Equipment

JACKET MATERIALS:

- Tefzel
- Polyurethane
- Low Smoke Zero Halogen Polyethelene
- PTFE
- PFA

BRAIDED JACKETS:

- Polyester
- Nomex
- Kevlar
- Peek
- Fiberglass

BLOWN ON JACKETS:

- Neoprene
- EDPM
- Viton
